Dear Sirs:

I want most sincerely to congratulate you upon, and thank you for, the soul stirring, all inspiring recitals by Miss Kathleen Parlow on Monday evenings. They are a rare and treasured treat and no other radio station in the world can give us anything to equal them for the depth of interpretation, greatness of feeling and glory of tone of Kathleen Parlow is something that makes all other violinists paper dolls by comparison.

No one else in the world has a technique so flawless and so easily achieved that you forget that there is such a thing as technique, and are simply swept away to heights of such sheer beauty and exaltation that it is hard to believe it is man, or I should say, woman made.

It must have been very difficult to find an accompanist worthy of Miss Parlow and let me congratulate you also upon how splendidly Mr. Barkin plays with her.

I only wish we could have these recitals go on and on! The world really needs such inspiration. I wish, too, that when you have so great a treat to offer the world, your broadcasts could be announced all over the United States. I know as soon as I knew there are to be any I get busy and write many postals to friends in different parts of the country and they are all so happy of the chance to listen to her again. Unfortunately friends in Florida can't get CBL on their radios.

CBL is always clear and unconfused on our radio in the evenings. In the daytime there is apt to be interference.

Again, thank you, for these new and glorious recitals by Miss Parlow. They are, indeed, a great

tonic for the soul!

Please give us more and more.

Sincerely,

Helen L. Buschert

(Mrs. S. R.)
